## CIRCULAR OF INFORMATION

FOR

Graduates of Accredited High Schools

---

The present school year closes June 14. The Summer Session  
begins June 19 and continues nine weeks. The next  
school year will open September 14, 1911.

Heating Plant, Tennis Court, Main Building, Training School.  
View of buildings and grounds from the rear campus.

## FACULTY

---

W. E. WILSON, A. M., Principal.  
J. H. MORGAN, A. M., Vice Principal, Mathematics.  
J. P. MUNSON, Ph. D., Biology.  
ELLA I. HARRIS, Ph. D., English.  
RUTH C. HOFFMAN, Primary Supervisor.  
ADALENE HUNT, Art.  
CLARA MEISNER, Kindergarten Director.  
J. W. NESBIT, Principal Training School.  
H. B. WHITNEY, B. S., Manual Training.  
JENNIE HOUSLEY, Grammar Grade Supervisor.  
E. J. KLEMME, A. M., Psychology.  
JOHN C. FRAZEE, A. B., Physical Science.  
M. C. HUTCHINSON, A. M., Expression.  
ADINA MALMSTEN, Music.  
ARTHUR J. COLLINS, A. M., History.  
NELLIE NASH, Domestic Economy.  
MARY E. PICKEN, Observation Teacher.  
J. B. POTTER, Assistant Training School.  
BLANCHE HAZELTON, English and Latin.  
EDITH HOPE RINGER, Observation Teacher.  
CATHERINE McMURCHY, Assistant Training School.  
AMY COLE, Assistant in Domestic Economy.  
MRS. ELLA G. WARNER, Librarian.

### TO HIGH SCHOOL GRADUATES.

---

There are many professional schools now open to high school graduates, but the profession of teaching presents as strong a claim upon the young men and women of our state as any other. This institution is unable to supply the demand made upon it for teachers. Trained teachers have the preference, and it is evident to every graduate that his field of usefulness is considerably enlarged if he is trained for his work. This circular is prepared to show briefly what this institution has to offer to graduates of accredited high schools who are looking toward the teaching profession.

**ADDITIONAL CULTURE AND GROWTH:** First of all, the normal school proposes progressive self culture as a thing essential in the education of the teacher. It seeks to open more widely the doors of science, literature, history, art and the industries, and by personal touch with the teachers and with other students in the pursuit of power and efficiency the normal school seeks to reveal to the student his capabilities and opportunities of usefulness.

**NORMAL SCHOOL AND LIFE DIPLOMA:** A high school graduate who attends a normal school two years and satisfactorily completes the work of the advanced course, may receive a normal school diploma good for a term of five years. This normal school diploma matures without examination into a life diploma when the holder has taught successfully for three years.

**CREDIT AT THE STATE UNIVERSITY:** Graduates of the advanced courses of any state normal school in Washington are admitted to the State University with junior standing. By taking the normal-university route any graduate from an accredited high school may secure both the normal school diploma, which will mature with experience into a life

diploma, and the University degree. For one who has in view educational work, it would seem that to substitute the advanced course of a normal school for the freshman and sophomore years of the university would be greatly advantageous.

**SECONDARY NORMAL SCHOOL CERTIFICATES:** The law of this state provides that a graduate of an accredited high school, by completing the work of the junior year of the advanced course for high school graduates may receive a secondary certificate good in the State of Washington for a term of three years. This course is not intended of itself to be a completion of the preparation of a teacher but merely adequate for those who find it necessary to withdraw for a year's teaching.

**POSITIONS AVAILABLE:** The state is demanding 1500 new teachers every year, and it is impossible for the normal schools to prepare teachers rapidly enough to meet this demand. Every teacher who completes a course in the normal school is practically sure of a position, and very often a choice of valuable positions. (Our students after completing the advanced course get from \$65 to \$100 per month.)

**Y. W. C. A.:** The religious welfare of our students is given due consideration. The six churches in the city have resident ministers who are glad to extend to the students a hearty welcome. The local Y. W. C. A. organization is in excellent working order and is very helpful to the interests of the school. Receptions are frequently held by this organization, and their meetings are addressed by the ministers of the city, traveling Y. W. C. A. secretaries, members of the faculty, and others.

**ADVANCED COURSE FOR HIGH SCHOOL GRADUATES:** Graduates for accredited high schools are admitted to this course without examination. Students who have completed the equivalent of the course of study for accredited high schools are admitted when proper credentials are presented. Students who complete successfully the work in this course receive diplomas which entitle them to teach in this state for a term of five years. Students who complete the junior year satisfactorily may receive a secondary certificate good for three years.

#### JUNIOR YEAR'S WORK.

<i>First Semester—</i>		<i>Second Semester—</i>	
English and Method in		English .....	2 credits
Grammar .....	3 credits	Psychology .....	4 "
Child Study and Observation	4 "	Teaching .....	5 "
Cellular Biology and		Geography and Methods....	4 "
Neurology .....	4 "	Art and Design.....	2 "
Oral Expression .....	2 "	Music .....	2 "

The senior class is divided each year into two sections so that one section may teach the first semester, and take those subjects marked (\*) the second semester, while the second section takes the subjects in the reverse order. A credit above is one hour a week for a semester or its equivalent.

A total of eighty credits is required for graduation from the complete course of two years.

Liberal election, not indicated above, may be allowed special students.

**SPECIAL DEPARTMENTS:** Special advantages are offered by the Ellensburg State Normal School in the departments of rural school pedagogy, and observation, domestic science and art, manual training, vocal and instrumental music—including basketry, painting and designing—kindergarten training for teachers, and physical culture in the gymnasium.

**ATHLETICS:** The school employs an athletic coach, who is also a member of the faculty. Boys organize teams in football, baseball, basketball and tennis. Girls have regular teams for basketball and tennis. The large roomy campus, as well as the gymnasium, offer opportunities for athletic events. Teams that show good class standing as well as good playing are allowed to schedule games with different teams of the state. The school stands for a high grade of athletics and only the students who can lose as well as win are allowed to participate.

## EXPENSES.

**TUITION:** Tuition is free to all students.

**REGISTRATION FEE:** An annual fee of \$10.00 is paid by each student. One-half of this fee is placed to the credit of the student and will be returned to him at the close of the year, or upon withdrawal, provided he returns all books, apparatus, and materials entrusted to him. The balance of this fee goes into a school fund to be used for other school interests.

**TEXT BOOKS:** For a number of years the normal school provided all of the required text books, but this policy was discontinued last year. Under a special arrangement with the local dealer students of the normal school secure all books and stationery at reasonable prices.

**FEE FOR LABORATORY:** No charge is made for the use of laboratories but students are required to pay for all apparatus damaged or destroyed by them. Material used in manual training and domestic science must be paid by the student. This expense will not exceed two dollars per year in any department.

**BOARD AND ROOM IN PRIVATE HOMES:** Board and rooms in comfortable homes may be secured at prices ranging from \$4.00 to \$5.50 per week. These prices include light and fuel. Good rooms, without board, may be rented at prices from \$4.00 to \$8.00 per month, which price also includes light, fuel and the care of room.

**ROOMS FOR LIGHT HOUSEKEEPING:** It often happens that students wish rooms for light housekeeping. Suitable rooms, partly furnished, near the normal school, may be rented at a moderate cost.

**BOARD FOR SERVICE:** Many of our best students in the past have earned both room and board by working in good homes in Ellensburg. Last year we had more calls for students than we had students to supply. Most of the calls were for girls, but it is often possible for boys to earn both room and board in the same way.

**NEW DORMITORY:** There has been maintained for the past fifteen years a dormitory located some distance from the school building. This year the school plans to have a new building ready for occupancy by the opening of school. Under this new plan the students will find comfortably furnished rooms under the supervision of an able and careful matron. The charges will be moderate, covering only the actual cost of maintenance. Rooms may be reserved now.

**THE NORMAL CLUB HOUSE:** The new dormitory will probably not accommodate all of the new students, so the school will again provide the normal club house. This is conducted on the co-operative plan. Fifteen persons are accommodated in this house, and thirteen additional table boarders can be admitted. The home idea prevails throughout. Students pay per month the actual cost of maintenance which during the past year has been as low as \$12.50 per month for room and board.

The catalog for 1911 will be issued about June 1st. It will be mailed to any address on request.

W. E. WILSON, *Principal.*
